

# Ingredients for the Animal & Pet Food Industry

Established in 1978, AMPAK Company, Inc. is a diverse Solutions Partner in the global sourcing of high-quality functional ingredients that can be used in a wide range of products across key industries. We have established strong supply relationships with key global manufacturers.

## Animal Nutrition & Pet Food Ingredients

Nutrient classes are categorized as either macronutrients (needed in relatively large amounts) or micronutrients (needed in smaller quantities). Macronutrients are carbohydrates, fats, fiber, proteins, and water; micronutrients are minerals and vitamins. Ampak offers a wide range of nutrient ingredients used in the formulation of products for animal nutrition (livestock and domestic animals) and for pet food markets.
